

SPECTRUM 2024

A Multidisciplinary Conference on Cancer Care

January 11-14, 2024

**JW Marriott Marquis Hotel
Miami, FL**

Accredited by:

www.thespectrumconference.org

The 2024 SPECTRUM conference offers attendees a comprehensive review of a variety of oncological diseases, combined with the latest developments in medical, interventional and surgical therapeutic options across multiple disciplines.

A practical overview of how to incorporate emerging therapies into practice will be presented through a multidisciplinary lens, intended to achieve the highest levels of success in the fight against cancer.

Leading experts from national and international programs will present the latest data and treatment innovations for oncological challenges in multiple organ systems with an emphasis on implementation from diagnosis to treatment.

SPECTRUM Welcomes attendees from Latin America:

Use code **LATAM50** at checkout to receive 50% off of registration

SPECTRUM is both didactic and interactive with panel discussions, instructive case presentations and hands-on workshops focused on:

- Hepatocellular carcinoma
- Lung cancer
- Metastatic colorectal cancer
- Cholangiocarcinoma
- Liver metastases
- Renal and prostate cancer
- Pancreatic cancer
- Neuroendocrine and musculoskeletal tumors
